Product Requirements Document (PRD)

ACIU × Odoo 19 — Communal Union ERP

Field	Value
Product	ACIU Odoo (Abiriba Communal Union / Improvement Union)
Platform	Odoo 19.0 Community Edition
Primary market	ACIU Germany (central e.V. + 11 branches), extensible worldwide
Status	Requirements locked from officer workshops (Sep 2026); ACL refined in implementation
Related blueprint	Cursor canvas: `ACIU-odoo-tailoring.canvas.tsx`
Version	1.4

1. Executive summary

ACIU needs an ERP to **harmonize member records, dues, project contributions, and branch operations** across Germany, then worldwide.

Stock Odoo 19 CE is a strong foundation (Contacts, multi-company, Accounting, Portal, Events, Project) but is **not** a diaspora-union system out of the box. Delivery requires a **thin custom addon layer** (`aciu_base`, `aciu_membership`, `aciu_dues`, later governance/projects/portal) without forking Odoo core.

Germany first: one database, multi-company (central e.V. + 11 branch companies with own banks), soft debt tracking (never hard-block membership), annual €20 dues, monthly roll call (attendance + per-branch fee).

---

2. Goals and non-goals

2.1 Goals

1. Single source of truth for ACIU Germany members, branches, and money.
2. Each branch collects into its **own bank**; central has its **own** bank.
3. Harmonize contribution types: annual dues, roll-call fees, branch/central projects, burial levies.
4. Track **open debts** clearly and encourage clearance **without** blocking membership.
5. Support monthly **roll-call attendance** per branch.
6. Design so branches that later register as e.V. need **no data migration**.
7. Leave a clear path to ACIU Worldwide (UK, North America, Nigeria, etc.).

2.2 Non-goals (v1)

- Hard-blocking members for unpaid dues or levies.
- Fixed % remittance from branch → central.
- Replacing Abiriba National Secretariat politics/governance outside DE scope.

- Enterprise-only Odoo features as a dependency (CE is enough to start).
- Forking or patching Odoo core modules.

---

3. Users and roles

Privilege principle (locked):

- **Branch officers** (see ladder) and **central executives** get **elevated operational rights** in their scope.
- They are **not Settings / Admin** users (no install apps, no edit security groups, no technical settings, no create companies).
- **Members** get **read + limited write** on their own data and selected shared areas (not full backend admin).
- **Branch officers are restricted to their home branch** for Branch company records and Contacts (no sibling branches, no Central/Germany hierarchy read).
- **Central Executive** users remain branch members and **keep any branch title** (Treasurer, President, VP, etc.); they **perform both** central and branch functions. Combined groups apply; Germany-wide rights come from Central Executive.

3.1 Role ladder

Role (Odoo group)	Typical people	Company / Contacts scope	Privilege level
Member	Ordinary members	Own contact (+ limited)	Read + write on **allowed** personal / participation areas only
Treasurer	Branch treasurer	Own branch only	Elevated finance on own branch; not admin
Financial Secretary	Branch financial secretary	Own branch only	Read own branch; not admin
Secretary	Branch secretary	Own branch only	Read own branch; not admin
Speaker	Branch speaker	Own branch only	Read own branch; not admin
Vice President	Branch VP	Own branch only	Read own branch; not admin
President	Branch president (xml id still `group_aciu_branch_leader`)	Own branch only	**Read/write** own branch ops + own branch company; not admin
Central Treasurer	Central e.V. treasurer	All ACIU DE companies	Elevated finance Germany-wide; not admin
Central Executive	Central / national officers	All ACIU DE companies (+ retained branch title)	Elevated ops Germany-wide **and** branch title duties; not admin

Role (Odoo group)	Typical people	Company / Contacts scope	Privilege level
System Admin	IT / technical custodian	All	Full Settings + full Members/Contacts R/W for profile corrections (rare; 1–2 people)

3.2 Privilege matrix (what each role can do)

Legend: **R** = read · **W** = write/create/edit · **—** = no access · **Own** = only own record / own branch
Officers (R) = Treasurer, Financial Secretary, Secretary, Speaker, Vice President (read own branch unless noted).

Area	Member	Officers (R)	Treasurer	President	Central Treasurer	Central Executive	Admin
Own profile (contact, family)	R/W Own	R/W Own	R/W Own	R/W Own	R/W Own	R/W Own	R/W
Own open debts & payments	R/W Own (pay)	R	R	R	R	R	R/W
Own roll-call attendance history	R Own	R branch	R branch	R/W branch	R	R	R/W
Branch member directory / Contacts	R Own (limited)	R Own branch	R/W Own branch	R/W Own branch	R all DE	R/W all DE	R/W
Branch menu (own company)	—	R Own branch	R Own branch	R/W Own branch	R all ACIU	R/W all ACIU	R/W
Central / parent company (Germany)	—	—	—	—	R	R/W	R/W
Sibling branches	—	—	—	—	R	R/W	R/W
Annual dues / roll-call fees (post & reconcile)	Pay own	R Own branch	R/W Own branch	R Own branch (approve/view)	R/W central + DE view	R all DE	R/W

Area	Member	Officers (R)	Treasurer	President	Central Treasurer	Central Executive	Admin
Burial levy / project campaigns	Pay own	R Own branch	R/W Own branch	R/W Own branch	R/W central + DE	R/W all DE	R/W
Branch bank journal / reconciliation	—	— / R	R/W Own branch	R Own branch	R/W central; R DE	R DE	R/W
Central bank / transfers	—	—	—	—	R/W	R	R/W
Monthly roll call (take attendance)	— (self check-in optional later)	R Own branch	R Own branch	R/W Own branch	R	R/W all DE	R/W
Branch projects	R Own branch	R Own branch	R/W Own branch	R/W Own branch	R	R/W	R/W
Central projects	R (contribute)	R	R	R	R/W	R/W	R/W
Reports (collections, attendance, debts)	R Own	R Own branch	R Own branch	R Own branch	R DE	R DE	R/W
Configure roll-call fee amount	—	—	—	R Own branch (propose)	—	W all branches	W
Users, groups, Settings, apps	—	—	—	—	—	—	**Only Admin**
Create companies / chart of accounts setup	—	—	—	—	—	—	**Only Admin**

3.3 Member read/write scope (explicit)

Members **may** read/write:

- Their **own** contact details (address, phone, email — within validation rules)
- Their **own** payment actions (pay open debts via portal)
- Their **own** attendance history (read)

- Optional: register interest / contribution intent on open projects (write own lines only)

Members **may not**:

- Edit other members' records
- Post accounting entries or reconcile banks
- Open/close burial levies or change fee schedules
- Access Settings, users, or other branches' books
- Browse Central or sibling branch companies / contact trees

3.4 Branch officers, President & Central Executive (elevated, not admin)

Branch officers (Treasurer, Financial Secretary, Secretary, Speaker, Vice President) — **own branch only**:

- Open **Branch** (own company) without Access Error; UI must **not** require reading ACIU Germany / parent company
- **Contacts** / Members: only home-branch contact tree (`aciu_branch_id` in allowed companies, or nested under that branch's company partner)
- **Cannot:** see Central, sibling branches, Settings, or other branches' banks

Treasurer (additional): finance write on own-branch dues/bank (as in matrix).

President (own branch only):

- Read/write own branch members, roll call, branch projects; write own branch company record
- Work with Treasurer (president focuses on people/ops; treasurer on bank)
- **Cannot:** Settings, install modules, manage security groups, see other branches' banks or Central company

Central Executive (Germany-wide ops + optional branch title):

- Remains a member of a home branch; **retains** Treasurer / President / VP / etc. when assigned
- Performs **both** central functions and the branch title functions
- View/manage members across branches, central projects, DE-wide reports; write all ACIU companies as needed for DE policy
- **Cannot:** Settings / technical admin (unless separately given Admin — discouraged)

Central Treasurer: central bank + consolidated DE finance view; read all ACIU companies; not Settings/Admin.

3.5 Implemented ACL notes (`aciu_base` / `aciu_membership`)

Mechanism	Behaviour
`company rule employee`	Employees only see `res.company` in `company_ids`
Branch officers	No extra parent-company read — Germany is not readable unless Central role (or Germany in `company_ids`)
President	Model write + record rule write on own branch company (`id in company_ids`)

Mechanism	Behaviour
Central Executive / Treasurer	Read all `is_aciu_company`; Central Executive also write all ACIU companies
Branch officer Contacts rule	`aciu_branch_id in company_ids` **or** `id child_of` activated companies' partners
Central Contacts rule	All ACIU members / branch-assigned contacts + company partner trees
ACIU → Branch menu	List/form avoids parent / child hierarchy widgets for non-central users

3.6 Brand / theme (aciuworldwide.com)

Public site reference: https://www.aciuworldwide.com/

Token	Hex	Use
Primary	`#00B686`	Buttons, active nav, accents, email CTA background
Header	`#00B686`	ERP top bar (solid brand green; white text)
Primary soft	`#E6F8F3`	Soft surfaces / mint fills
Ink	`#313131`	Content headings
Muted	`#737373`	Content secondary text
Surface	`#F5F5F5`	Page background

Implementation: `aciu_base/brand_colors.py` + `static/src/scss/primary_variables.scss` (override `$o-brand-primary`). Company `primary_color` / `secondary_color` / email button colors set on upgrade. **Editable later** by changing those two files and re-upgrading `aciu_base`.

Login page uses full-bleed `aciu_base/static/img/bg-login.jpeg` via CSS (`background-size: cover`, centered; mobile-safe position) with a frosted glass card (`aciu_login.scss`).

---

4. Organization and legal model

4.1 Hierarchy (Odoo multi-company)

```
ACIU Worldwide (root, later)
  └── ACIU Germany (central) — registered e.V., is_registered_ev = true
        ├── ACIU Bremen (DE-HB)
        ├── ACIU Hamburg (DE-HH)
        ├── ACIU Bayern (DE-BY)
        ├── ACIU Baden-Württemberg (DE-BW)
        ├── ACIU NRW (DE-NW)
        ├── ACIU Duisburg (DE-DU)      ← peer of NRW, not child of NRW
        ├── ACIU Halle/Saale (DE-HAL)
        ├── ACIU Osnabrück (DE-OS)
        ├── ACIU Berlin-Brandenburg (DE-BE)
```

```
        ├── ACIU Frankfurt-Mainz (DE-FFM)
        └── ACIU Hannover (DE-H)
```

Later siblings under Worldwide: ACIU UK, North America, Nigeria, etc.

4.2 Banking and legal status

Entity	Legal status now	Bank account	Odoo representation
ACIU Germany (central)	Registered e.V.	Yes — central	Parent company; full accounting + `l10n_de`
11 branches	Operational chapters (not yet e.V.)	Yes — each own	Child companies from day one; own bank journal
Branch after e.V. registration	Own e.V.	Same or new	Flip `is_registered_ev` (+ VR number); **no restructuring**

Decision (locked): Create all 11 branches as `res.company` children immediately so each has its own bank journal and dues ledger.

4.3 Money flow

1. Member pays into **their branch** bank.
2. Branch treasurer reconciles the branch journal.
3. Optional transfer branch → central when needed (**no fixed remittance %**).
4. Central funds national / Abiriba projects from the central account.

---

5. Functional requirements

5.1 Membership (`aciu_membership`)

ID	Requirement	Priority
M-01	One `res.partner` per person; home branch = one of the 11 DE companies	Must
M-02	Member fields: branch, age grade, membership status, join date, officer roles, optional NIN/diaspora/ACIU ID	Must
M-03	Family / spouse links	Should
M-04	Branch transfer workflow	Should
M-05	Soft open-debt balance visible on member (does not block membership)	Must

5.2 Contributions and dues (`aciu_dues`)

ID	Requirement	Priority
D-01	**Annual membership due = €20** (Germany-wide); invoice on member's branch company	Must
D-02	Unpaid annual due **does not block** membership; remains open debt until paid	Must
D-03	**Monthly roll call fee** configurable **per branch**; invoice on branch company	Must
D-04	Seed Berlin-Brandenburg roll-call fee = **€5**; other branches configurable (TBD)	Must
D-05	Branch project contribution campaigns (analytic + branch company)	Must
D-06	Central project contribution campaigns (central-owned; multi-branch payers; optional remit)	Must
D-07	**Burial levy**: ad-hoc campaign (open → invoice eligible → close); no standing schedule	Must
D-08	Unpaid burial levy / project debts **do not block** membership; tracked until cleared	Must
D-09	Soft debt UX: portal + treasurer always show what is owed; encourage clearance	Must
D-10	Event fees (optional, linked to Events)	Should
D-11	No formal branch→central remittance percentage engine	Must (as non-feature)

5.3 Roll call / governance (`aciu_governance` — Phase 2, core attendance can start earlier)

ID	Requirement	Priority
G-01	Each branch runs **monthly roll call**	Must
G-02	Attendance statuses: present / absent / excused	Must
G-03	Roll call = **attendance + fee** (fee amount per branch)	Must
G-04	Attendance reports per branch / member (participation history)	Must
G-05	Elections, committees, by-law document links	Could (Phase 2)

5.4 Projects (`aciu_projects` — Phase 2)

ID	Requirement	Priority
P-01	Distinguish **branch project** vs **central project**	Must
P-02	Analytic account per project (payer + sourcing branch)	Must

ID	Requirement	Priority
P-03	Track contributions toward Abiriba / development projects	Should

5.5 Portal / worldwide UX (`aciu_portal_ww` — Phase 3)

ID	Requirement	Priority
W-01	Member portal: view open debts, pay, receipts	Must
W-02	Join / branch selection flows	Should
W-03	Optional NIN / ID verification hooks	Could

5.6 Security and access (`aciu_base` / `aciu_membership`)

ID	Requirement	Priority
S-01	Security groups: Member; branch officers Treasurer, Financial Secretary, Secretary, Speaker, Vice President, President; Central Treasurer; Central Executive; System Admin	Must
S-02	President & Central Executive = **elevated ops, never Settings/Admin** by default	Must
S-03	Members = **read + limited write** on own profile, own payments, own attendance; no other members' edit	Must
S-04	Branch officers limited to **own company** for Branch + Contacts; Treasurer also own bank	Must
S-05	Central Treasurer: central bank + consolidated DE finance view; read all ACIU companies	Must
S-06	Central Executive: all DE companies operational access; **retains branch title** and performs both roles; no technical Settings	Must
S-07	Record rules enforce company/branch isolation for non-central roles (no Germany parent read for branch-only officers)	Must
S-08	Only System Admin may manage users/groups, apps, and technical configuration; also full read/write on Members/Contacts to correct profiles	Must
S-09	Branch menu / company forms must not force branch officers to read Central (no parent hierarchy widgets)	Must
S-10	Contacts for branch officers: home-branch members and that branch's partner tree only	Must

6. Contribution catalog (Germany)

Charge	Scope	Frequency	Mode	Blocks membership?

Charge	Scope	Frequency	Mode	Blocks membership?
Annual membership due (€20)	Germany-wide	Yearly	Recurring invoice	No — soft debt
Monthly roll-call fee	Per branch (BE = €5; others TBD)	Monthly	Recurring + attendance	No — soft debt
Branch project contribution	One branch project	Campaign	Campaign	No — soft debt
Central project contribution	Central project, multi-branch	Campaign	Campaign	No — soft debt
Burial levy	Case-driven	Ad-hoc	Levy campaign	No — soft debt
Event fee	Per event	One-off	Event-linked	No — soft debt

7. Branch master data

#	Branch	Code	Roll-call fee / month
1	Bremen	DE-HB	TBD
2	Hamburg	DE-HH	TBD
3	Bayern	DE-BY	TBD
4	Stuttgart / Baden-Württemberg	DE-BW	TBD
5	Nordrhein-Westfalen (NRW)	DE-NW	TBD
6	Duisburg	DE-DU	TBD
7	Halle / Saale	DE-HAL	TBD
8	Osnabrück	DE-OS	TBD
9	Berlin / Brandenburg	DE-BE	**€5**
10	Frankfurt / Mainz	DE-FFM	TBD
11	Hannover	DE-H	TBD

8. Native Odoo apps to enable

App	Fit	ACIU use
Contacts	Core	Member & household registry
Accounting + Analytic	Core	Invoices, banks, project analytics
l10n_de	Core (DE)	SKR chart, GoBD-friendly audit trail
Sales / Invoicing	Core	Dues and levy products

App	Fit	ACIU use
Payment + Portal	High	Online pay; open debts & receipts
Events	High	Roll calls, festivals, AGMs
Project	High	Development / fundraising projects
Discuss / Mail	Medium	Announcements; payment reminders
CRM	Low–Med	Outreach (optional)
Partnership	Weak alone	Do not use as membership engine
Website	Later	Public join / transparency

Technical constraint: Keep custom code under `custom_addons/aciu_*`. Never fork core.

9. Custom module stack

Module	Phase	Scope
`aciu_base`	1	Company hierarchy helpers, `is_registered_ev`, security groups, menus, branding (logo + aciuworldwide.com colors)
`aciu_membership`	1	Member profile on partner, age grade, status, family, transfers
`aciu_dues`	1	€20 annual, per-branch roll-call fee, project & burial campaigns, soft debt
`aciu_governance`	2	Roll-call attendance UX, elections, committees
`aciu_projects`	2	Branch vs central project wrappers + Abiriba remittance proofs
`aciu_portal_ww`	3	Member self-service; worldwide join/pay

10. Reporting requirements

Layer	Questions answered
Member	What do I still owe? (soft list)
Branch	Collections; attendance %; who still owes
Central project	Contributions by member / branch
Country (DE)	Branch banks; optional transfers to central
Auditor	Cross-company debt and collection overview

11. Phased rollout

Phase	Scope	Outcome
0 — Foundation	Deploy Odoo 19; enable Contacts, Accounting, Analytic, Sales, Portal, Payment, Events, Project; `l10n_de`	Empty ERP with German books ready

Phase	Scope	Outcome
1 — Germany pilot	Central + 2–3 branches (e.g. Hamburg, NRW, Berlin); import members; dues + roll-call fee; treasurer workflows	Pilot collects in one system
2 — Harmonize DE	All 11 branches; attendance; soft debt dashboards	National DE picture
3 — Worldwide	UK / NA / Nigeria companies; shared member ID; multi-currency	Diaspora single source of truth
4 — Member experience	Portal + website join/pay; reminders; project transparency	Self-service; less treasurer load

12. Design decisions (locked)

Decision	Resolution
Database topology	One DB, multi-company
German chapters	Child companies now (own banks); `is_registered_ev` flag
Banks	Central bank + each branch bank
Annual due	€20 Germany-wide; soft debt; never hard-block
Monthly roll call	Attendance **+** fee; fee **per branch**; Berlin-Brandenburg €5
Burial levy	Ad-hoc campaign; soft debt; never hard-block
Branch → central remittance	No formal % rule; optional transfers only
Debt culture	Soft for all charges — track, display, encourage clearance
Edition	Odoo Community Edition to start
Custom code	`custom_addons/aciu_*` only

Still open

- ☐ Roll-call fee amounts for the other 10 branches (not Berlin-Brandenburg)
- ☐ Exact pilot branch set for Phase 1
- ☐ Worldwide HQ identity (Abiriba National Secretariat vs diaspora federation vs both)
- ☐ Member unique ID scheme (ACIU ID vs email vs optional NIN)

---

13. Success metrics

1. All 11 DE branches + central can record collections against the correct bank.
2. Every member has a visible **open debt** list; unpaid €20 / fees / levies never auto-expel or hard-block.
3. Berlin-Brandenburg monthly roll call records attendance and €5 fee.
4. Central and branch projects report contributions by member and branch.
5. Burial levy can be opened, collected, and closed without a yearly schedule.

6. Time for treasurers to produce monthly collection + attendance reports reduced vs spreadsheets.

---

14. Out-of-scope risks / assumptions

- **Assumption:** Officers will supply remaining roll-call fees and member import lists.
- **Assumption:** Bank statements can be imported/reconciled per branch journal in Odoo.
- **Risk:** Treating Duisburg as peer of NRW must stay aligned with governance; change only if officers decide nesting.
- **Risk:** Soft debt may require cultural/process reminders (mail, meetings) — product shows debt, does not enforce.

---

15. Acceptance criteria (Phase 1 pilot)

- ☐ ACIU Germany + ≥2 branch companies created with `l10n_de` and bank journals
- ☐ `is_registered_ev` true on central, false on pilot branches
- ☐ Members imported and linked to home branch
- ☐ Annual €20 product/schedule generates invoices on correct branch
- ☐ Berlin-Brandenburg roll-call fee €5 configurable; other pilot branches set or left TBD
- ☐ Member form / portal shows open debts without blocking access
- ☐ Branch treasurer cannot see another branch's bank
- ☐ Branch treasurer can open Branch + Contacts for **own branch only** (no Central Access Error; no sibling contacts)
- ☐ Burial levy campaign can be created and closed for a pilot branch
- ☐ Custom security groups match §3 privilege matrix (officers/execs ≠ Admin; Central Executive may keep branch title)
- ☐ Custom code lives only under `custom_addons/`

---

16. Document history

Version	Date	Notes
1.4	2026-09-23	Theme: aciuworldwide.com palette (primary `#00B686`) on Odoo UI + company colors
1.3	2026-09-23	ACL: named branch officers; President R/W own branch; branch-only Branch/Contacts; Central Executive keeps branch titles (dual role)
1.2	2026-09-22	Phase 0–1 scaffold: custom_addons/aciu_base, aciu_membership, aciu_dues
1.1	2026-09-21	Privilege model: Branch Leader & Central Executive elevated (not admin); Member R/W limited areas
1.0	2026-09-21	Initial PRD from ACIU Odoo Tailoring workshops (branches, banks, €20, roll call, soft debt, projects, burial levy)

Sources: Odoo 19.0 CE workspace; ACIU Germany officer inputs (organization, fees, soft debt, remittance policy); public ACIU worldwide context (UK, NA, aciuworldwide.com).
